MR. H. W. B. GLOVER.

He is Appointed Traffic Manager of the Seaboard Air Line.

The following order has been issued by Mr. E. St. John, vice president of the Seaboard Air Line:

SEABOARD AIR LINE, OFFICE OF VICE-PRESIDENT, PORTSMOUTH, VA., July 8, 1895.

Notice:—Mr. H. W. B. Glover is hereby appointed Traffic Manager of the railroads comprising the Seaboard Air Line, with headquarters at Portsmouth, Va. Appointment effective on this date.

The Richmond Times in noticing this order gives the following sketch of the new traffic manager. Mr. Glover is a young man of about 35 years of age, and is acknowledged by all as one of the leading railroad men of the country. He was first chief clerk for Mr. F. W. Clark, assistant general freight agent of the Seaboard Air Line at Wilmington, N. C., and afterwards chief clerk to Mr. F. M. Ironmonger, agent of the Associated railways at Norfolk, Va., and later was appointed division freight agent of the Seaboard Air Line at Atlanta, Ga.

On the death of Mr. O. V. Smith, traffic manager, he was made general agent of the lines and has now been made traffic manager. Mr. T. J. Anderson is general passenger agent of the lines at Portsmouth, Va. Mr. Glover will have the appointment of a general freight agent, but who this will be is not yet known.

Mr. Glover assumes charge of the traffic department just on the completion of the Seaboard's new office building at Portsmouth, Va., and the forces were busy yesterday moving into the new buildings.

The Seaboard was never in better shape, and will certainly be heard from

through Mr. Glover in a substantial manner at no very far distant date.

With Glover as traffic manager and Tom Anderson as general passenger agent, the Seaboard Air-Line has in its service two of the brightest railroad hustlers in their respective departments that there is in the country.

ELIZABETH CITY, N. C.

ELIZABETH CITY, N. C., July 11.—News was received here yesterday of the death of Miss Helen Bell, sister of Mrs. J. B. Ferrebee, of this place, Miss Bell had many friends here who will be grieved at the death.

A telegram was received by S. B. Parsons, catcher of the Cyclone Baseball Club, this morning, from Manager Elliott, of the Edenton team, asking him to go there by the next train and catch for them (the Edentons) in their game with the Berkley, Va., club this afternoon. He could not go, but Catcher Dawson, of the Blue and Gray, went in his place.

Arrangements have been made for a game between the home team here and the Berkleys on their return from Edenton to-morrow. It will be called at 4 o'clock and 25 cents admission charged. Go and see a good game.

An ice cream festival for the benefit of the baseball club will be held at the Armory of the Naval Reserves to-morrow (Friday) night.

An Ideal Place for Ladies' Summer Vacations.

There are many ladies who are blessed with the opportunity, spend their summers away from the heat of the city. Numbers from the South visit Canada and Niagara Falls. They will find an ideal place to spend their vacation with the Sisters of Loretto at Niagara Falls, Ont. The good sisters have made a new departure this year, and will take ladies or young girls as summer boarders, and will give them every accommodation from the present time until the end of September.

It is to be hoped the beautiful Academy of Loretto will be filled throughout the summer. Its massive proportions, large and airy rooms and an ideal place for summer rest; at the same time it is of easy access to the great cataract and all the varied attractions of world-famous Niagara Falls. There will be no burdensome rules to observe, and boarders can come and go as they please, only being required to keep within the limits of retiring hours. The terms will be found quite reasonable and may be ascertained by addressing the Sister Superior, Loretto Academy, Niagara Falls, Ont.

A horse kicked H. S. Shafer, of the Freemyer House, Middleburg, N. Y., on the knee, which laid him up in bed and caused the knee joint to become stiff. A friend recommended him to use Chamberlain's Pain Balm, which he did, and in two days was able to be around. Mr. Shafer has recommended it to many others and says it is excellent for any kind of a bruise or sprain. This same remedy is also famous for its cures of rheumatism. For sale by all druggists.

Prof. J. Atkinson, of Elon College, N. C., is visiting friends in Suffolk.

Miss Mattie Boswell left last afternoon for a trip to Rocky Mount, N. C.

Miss Anna Scott, of Portsmouth, is the guest of Mrs. Bon Danville.

Circle No. 3, King's Daughters, will have a lawn party for their benefit this evening on the vacant lot next the store of J. C. Smith & Co.

Miss Rosa Dyson, of Chester, Va., arrived yesterday for a visit to Miss Jennie Briggs.

The Bruce-Ellis case was yesterday continued in County Court, the examination of eight witnesses being the only work done.

Miss Ellie Murray left yesterday for Staunton, Va., where she will remain for several weeks.

Henry Croil, Esq., of Saginaw, Mich., is being entertained by the family of Mr. J. M. Thompson, Main street.

The Suffolk Juniors and Shoo Flys, two local teams, played a rather tame game of baseball at West End Park, the result being a score of 11 to 9 in the former's favor.

Miss Dolan Lee, of Lower Parish, passed through Suffolk yesterday en route home from North Carolina.

Prof. W. W. Briggs, principal of Louisa Dale Academy, is looking after his interests in this section.

Miss Hettie O. Harrell was yesterday by Nansemond Lodge, No. 2090, K. of H., paid \$2,000, that being the amount of insurance carried in that order by her father, the late D. C. Harrell.

Mr. W. H. Eley is at present engaged in taking the census of Suffolk's school population—persons between the ages of 5 and 21 years. Indications are that variations from the 1890 census will be small. He will finish next week.

Probably the oldest person in Nansemond county spent his 95th birthday in Suffolk this week, Mr. William Humphlett, who lives near Great Fork.

The old gentleman is well preserved and with exception of nervousness his appearance does not indicate such advanced years.

DOUBLE BIRTHDAY RECEPTION.—There will be a double birthday reception this afternoon and evening at the residence of Mr. E. F. Holland, Commonwealth's Attorney. Two of his children will celebrate the anniversary of their birth. From 5 till 7 o'clock little Miss Bessie, aged 5, will entertain her young friends, and from 7 till 9 Master Pretlow, aged 10, will be the host of his invited guests.

UNSUCCESSFUL EFFORTS.—Owing to the firemen's failure to realize on their moonlight excursion and their later fruitless efforts in soliciting private donations their hose coupling team will probably not be sent to the State Firemen's Association in Harrisonburg unless they have better luck in the future.

COMING EXCURSION.—The Ladies' Social Union of Berea Christian Church, near Driver's, will, on Wednesday, July 17th, run an excursion, under its auspices, from Suffolk to points on the Chesapeake bay. The steamer will stop at the various wharves along the Nansemond and at Old Point both ways. The Luray has been chartered for the occasion. The following ladies constitute the managing committee: Mesdames F. M. Arthur, Alexander Savage, T. K. Gaskins and Misses Martha Driver and Mamie Lee. The management is very desirous of a liberal patronage.

FARMVILLE, VA.

The Matter of Water. How the Town Council Retards Progress.

FARMVILLE, Va., July 10, 1895.

Editor of Norfolk Virginian:

In these days when everything shows the development of a progressive spirit in the South, the action of the Town Council of Farmville, Va., to the introduction of water in the town, must appear strange.

The town has about 2,500 inhabitants and being the second tobacco market in the State holds valuable property. Up to now the protection from fires was practically none.

The town owns two small hand engines and about 1,000 feet of hose, whereas the water supply is obtained from two reservoirs or cisterns located at different points, which, if full, hold from 2,000 to 4,500 gallons of water. It has happened that a reservoir was pumped dry in forty six minutes.

In April, 1893, the town granted a franchise for water works. A company was formed (I think in your city), and on October 1st, 1894, we were in possession of a very complete water works system.

Of course, property holders expected the authorities to accept the proposal made by the water works company and to have our town properly protected by an adequate number of fire plugs. They first kicked at the price. The water works company agreed to furnish plugs at \$20 per annum. Being interested in the case myself, on account of the enormously high insurance rates I have to pay annually, I studied the subject up pretty closely and find that there is but one other town in Virginia which pays an equally low water rate, viz., Roanoke, and that city has some eighty-five or ninety hydrants.

The Council did not want to make the contract for more than one or two years. This the water company refused, on account of their having to put in the plugs, bear all the expenses and not receiving more than \$400 per year for the twenty plugs. The council keeps on twitting and disensing and holding meetings and meetings, and from all appearances they simply seem to think that we can do without a proper fire protection.

I, for one, and with me the majority of the citizens, would not only feel safer than we do now, but the property

owners would save a considerable amount in insurance. This was doubted, being claimed by some councilmen that the insurance companies would not reduce rates. This has been proved to be an erroneous conclusion. For instance, the State normal school took one plug in its front yard and one in its back yard. Soon after its policies became due, and at that same time, the premiums were increased with one-fourth more than previously paid.

The President of the school, notified the insurance people at once of the altered circumstances, and he succeeded in getting his policies renewed at the old rates, thereby saving more than \$80 per annum. (His water rent costs him \$22 annually.)

Of course, this would be done equally as well for other property holders, if a proper fire protection was here. It remains to be seen if councilmen can govern a place according to their views and in contradiction to the wishes of the majority of the town property owners?
